

Managing Partner;

Vancouver, Calgary, Edmonton, Ottawa

Hampton Securities is looking to expand its footprint in a number of important regional markets across Canada. Our model resembles the Evergreen model once offered by one of the major Canadian banks. Entrepreneurship is a key requirement.

Hampton will build out offices to suit your business requirements and provide turn-key management support to run your regional office. Compliance, Systems, Accounting and Support Staff are all provided by the firm to the Managing Partner. All revenues shared at up to 85/15 less ticket charges with the Managing Partner. Additional branch producer's net profit is credited to the Partner's account. Unparalleled financial opportunity for an entrepreneur looking to monetize their good name in their local community.
