

Research Analyst Position

Location: Downtown Toronto
Start Date: Immediate
Application Closing Date: June 1, 2022

The Investment Industry Association of Canada (IIAC) is the leading national association representing the vast majority of the financial services provided to Canadian retail and institutional investors.

Our regulatory and government advocacy and our thought leadership, make us a strong voice for current and future issues that matter to vibrant, compliant capital markets, job creation and investor benefits.

The IIAC works with its own Committees, domestic and international exchanges, market intermediaries, government and regulatory bodies, educational institutions, and other domestic and international professional associations.

We are a growing, energetic, and thought-provoking organization that strives for meaningful policy, and regulatory and legislative change in many creative and impactful ways.

The IIAC is seeking a Research Analyst in its Toronto office.

RESPONSIBILITIES

- Collect, analyze and interpret various investment industry data, statistics and trends;
- Compile regular member reporting and analysis
- Perform market research across a variety of subject areas and topics as required
- Assist in the preparation of industry presentations and other material

QUALIFICATIONS

- Bachelors' degree in finance, business administration, economics, accounting, data science or related fields
- Continuing education such as CFA credential or equivalent an asset
- Deep understanding of the investment and investment management industry
- Key skills and competencies in data, industry and financial analysis
- Strong research and analytical skills
- An understanding of, and interest in the investment and securities industry
- Ability to manage multiple priorities and projects
- Ability to communicate effectively and clearly, both orally and in writing, with peers, members and external stakeholders in an environment with a moderate degree of technical complexity and specialized knowledge.
- Ability to produce high quality work under pressure to meet timelines
- Experience in the production of publications using industry standard desk-top software. Experience with Adobe Illustrator or Adobe InDesign would be an asset.
- Ability to bring energy and initiative to performing tasks, demonstrating a strong service orientation
- High degree of comfort working and manipulating data
- Intermediate to advanced capabilities with Excel and PowerPoint

APPLICATIONS

Qualified candidates may submit their application to **publicaffairs_affairespubliques@iiac.ca**, using "Research Analyst" in the subject line, by June 1, 2022.

We appreciate all applicants, however, only those who most closely match job requirements will be contacted.

The IIAC is an equal opportunity employer who views diversity as a strength. We foster inclusiveness, accessibility, and collaboration. Positions are open to all.
